

Converting bounty tokens to LHCoins in Metamask

1. Go to wallet.ethereum.org and launch Metamask.
2. Make sure you have added a custom token LHCoin and LHCoin_b to your wallet and that LHCoin_b tokens have been accrued to your account.
3. In the Contracts section please press the **WATCH CONTRACT** button.

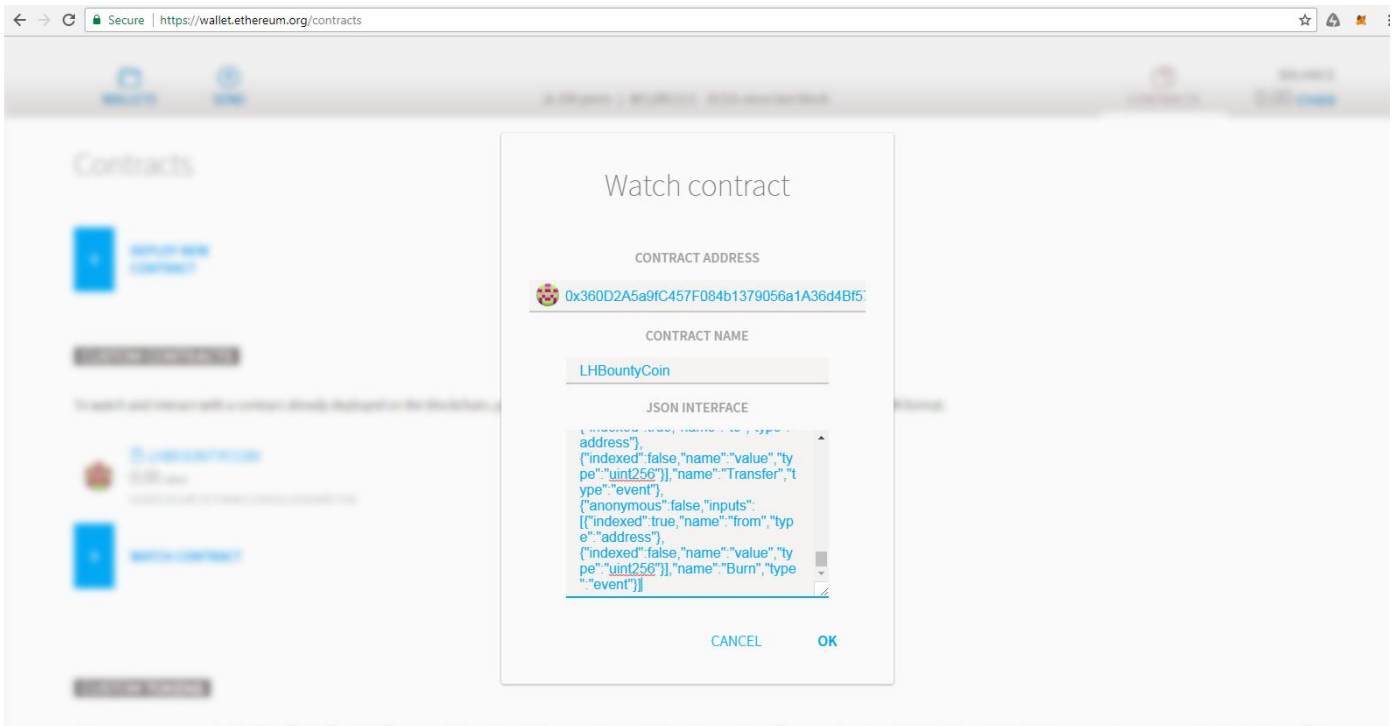

4. Copy the LHCoin_b contract address (0x360D2A5a9fC457F084b1379056a1A36d4Bf57546) and paste it into the Contract Address form, the Contract Name is LHbountyCoin.

5. Copy the code from the attached file by following the link <https://lh-crypto.io/static/api.txt> then paste it into the JSON INTERFACE section, press OK.

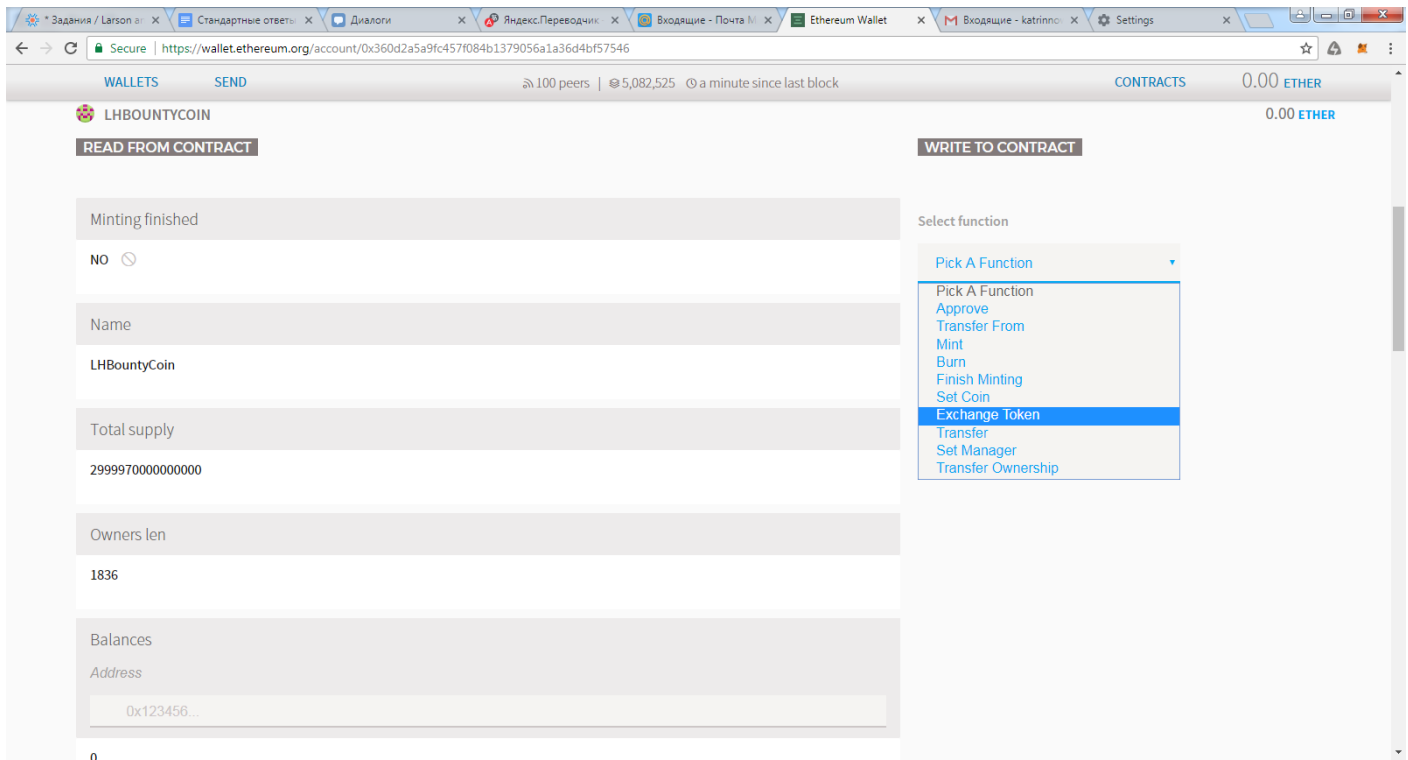

6. There appears a custom contract, please open it.

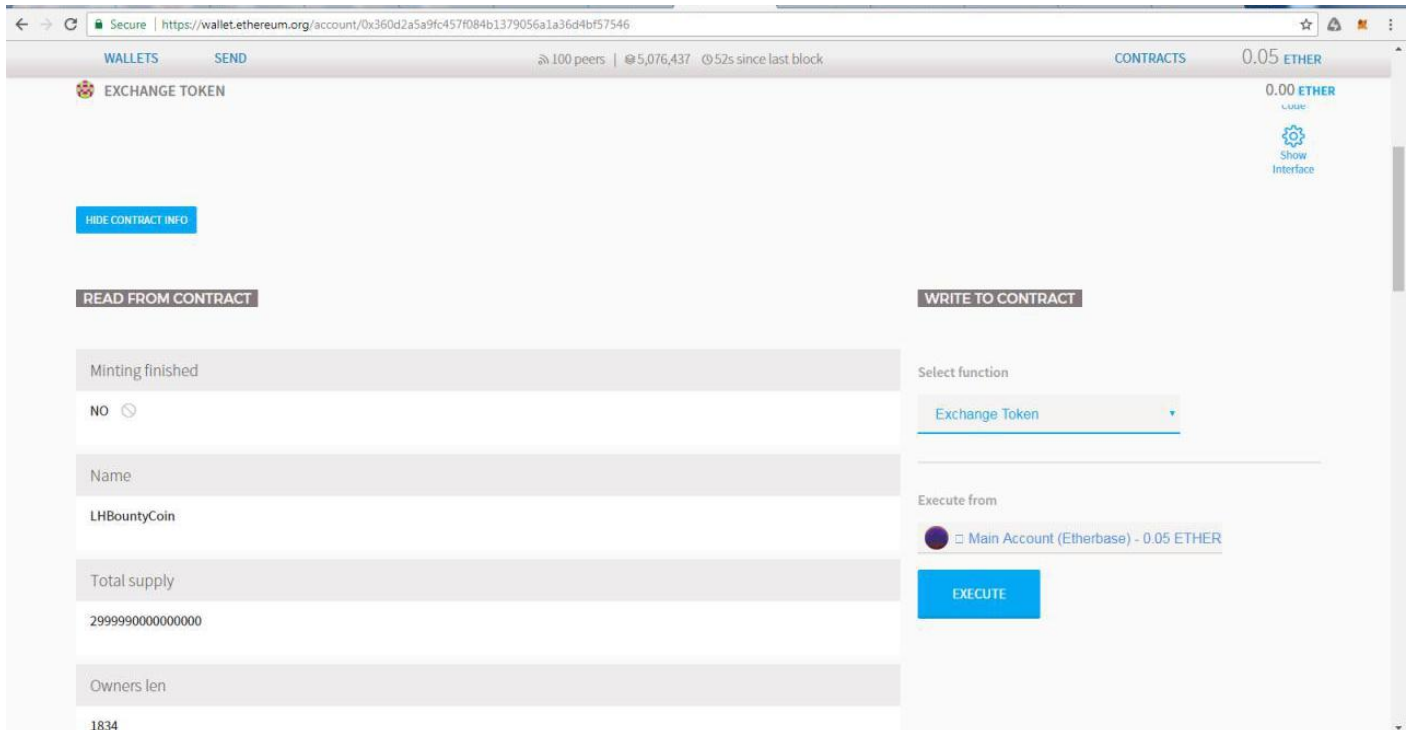

The screenshot shows the 'Contracts' page in an Ethereum wallet. At the top, there are navigation tabs for 'WALLETS' and 'SEND', and a 'BALANCE' section showing '0.00 ETHER'. The main heading is 'Contracts'. Below it, there is a blue button with a plus sign and the text 'DEPLOY NEW CONTRACT'. A section titled 'CUSTOM CONTRACTS' contains a list of contracts. The first contract is 'LHBOUNTYCOIN' with a balance of '0.00 ether' and the address '0x360D2A5a9fC457F084b1379056a1A36d4Bf57546'. Below the contract name is a blue button with a plus sign and the text 'WATCH CONTRACT'. At the bottom, there is a section titled 'CUSTOM TOKENS'.

The screenshot shows the details page for the 'LHBountyCoin' contract. The address '0x360D2A5a9fC457F084b1379056a1A36d4Bf57546' is displayed. The balance is '0.00 ETHER'. On the right side, there is a vertical menu of actions: 'Transfer Ether & Tokens', 'Fund with Bitcoin', 'Fund with a Credit Card (U.S. only)', 'View on Etherscan', 'Copy address', 'Show QR-Code', and 'Show Interface'. At the bottom, there are two buttons: 'HIDE CONTRACT INFO' on the left and 'WRITE TO CONTRACT' on the right.

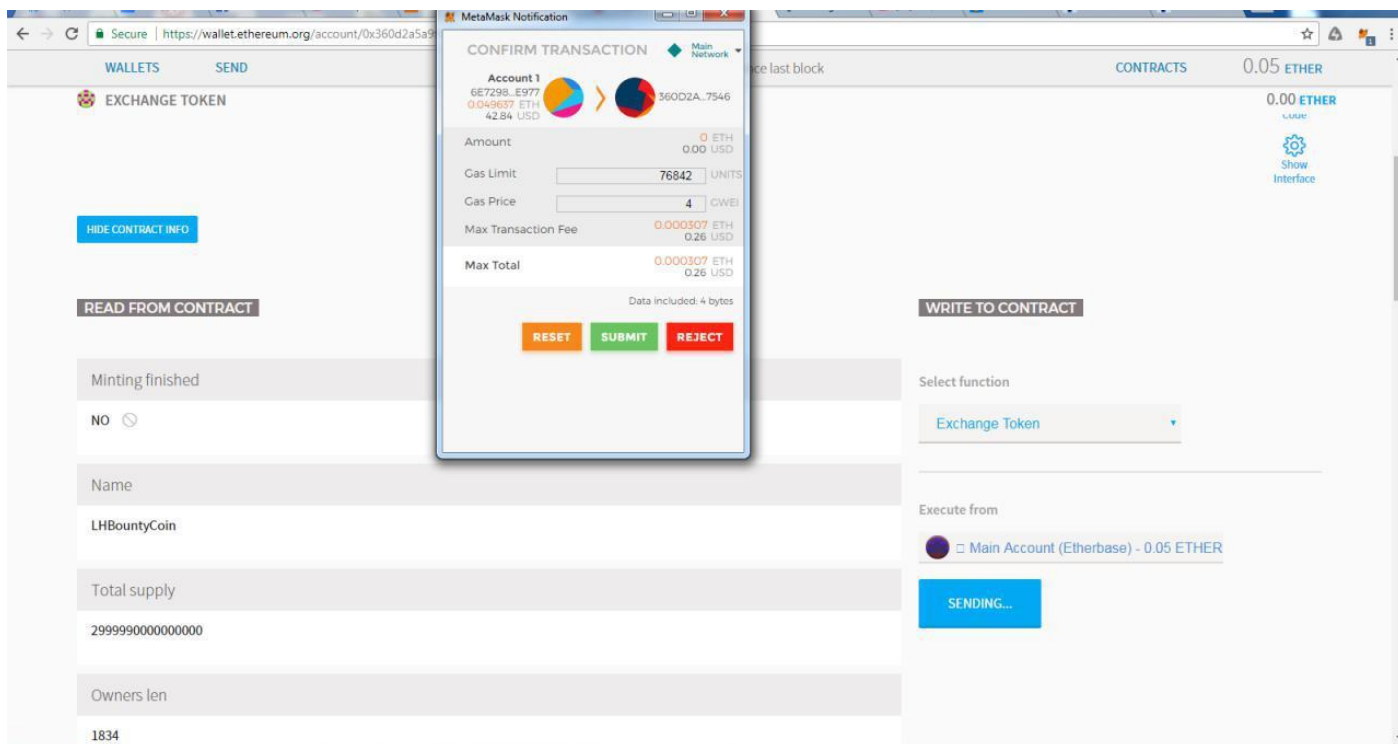

7. In the “Pick a function” drop-down menu choose Exchange token.

8. Push the “Execute” button.

9. Press "Submit" in the Metamask pop-up.

10. Make sure your LHCoin_b tokens have been converted to LHCoins.
